

## HARD WORK

### On the Part of the Joint Arbitration Commission.

#### Two Large Coal Operators in Pennsylvania Have Signed the List

To Secure True Uniformity in the Pittsburgh District—Every Operator It Is Said, Has Been Removed in the Way of a Settlement of the Strike.

PITTSBURGH, Pa., July 16.—This has been a day devoted to hard work on the part of the joint arbitration commission in their efforts to secure true uniformity in this district as suggested by W. P. Dearth and all express themselves as well satisfied with the progress made. Two of the largest operators in the district, W. P. Dearth and Francis L. Robbins, have consented to head the list and the commissioners feel satisfied that the other operators will soon fall in line.

It is claimed by the miner's officials, however, that the understanding was that the agreement meant 95 per cent. of the output of the district, whereas it is now said to mean 95 per cent. of the operators. They say it will be absolutely impossible to get 95 per cent. of the operators, as there are a great many operators mining on a small scale. President Dolan said that while he would do all in his power to assist the commissioners in securing the signatures of the operators to the agreement, he thought the proposition was a scheme of President Dearth's to keep his men at work and prolong the strike.

Gen. Little, of the Ohio arbitration board, said that every obstacle had been removed in the way of a settlement along the lines proposed, and he had not heard of any operators who would not sign.

Commissioner Edward Ridgely and Horace Caley, of Illinois, left for Chicago Thursday evening to see Col. W. P. Rend and J. W. Ellsworth, and it is possible induce Col. Rend to return to Pittsburgh and use his influence among the operators to have the agreement signed.

L. P. McCormack, of Indiana, another of the commissioners, will leave for Terre Haute Friday morning to see J. Smith Talley, to secure his cooperation. Mr. Talley is a heavy purchaser of Pittsburgh coal. Thursday evening the commission sent a telegram to Senator Mark Hanna asking him to lend his assistance in having the agreement adopted.

The situation in this district among the miners remains unchanged.

#### MINERS WAGES.

President Hatchford Asks for Statement Regarding the Pay They Received.

COLUMBUS, O., July 16.—President Hatchford has mailed personal requests to miners throughout the country asking for statements regarding the wages they received, for publication for the benefit of the public. Thirty-nine miners in the Sandusky Creek valley have been heard from. Since early in the spring the wages of these men for each two weeks has averaged \$5.74 each. The total earnings were \$223.98, and for the same period their indebtedness to the operators for rent, provisions, mining materials, etc., aggregated \$919.28, leaving the miners in debt to their employers in the sum of \$695.30.

President Hatchford says this is a fair sample of the condition of the miners.

Commercial Tourists at Niagara. NIAGARA FALLS, N. Y., July 16.—The Pan-American commercial tourists, who have been inspecting the industrial conditions of this country for the past six weeks, are concluding their travels by listening to the roar of Niagara. Arriving here from Milwaukee early Thursday evening, the delegates were met by the local reception committee and escorted to the International hotel, where there was an informal banquet under the auspices of the chamber of commerce and the Pan-American Exposition company, which is to conduct a Pan-American congress here in 1909.

Virgin Gold Gators in Alaska. SAN FRANCISCO, July 16.—A story rivaling in intensity of interest that told of the fabulous wealth of Monte Cristo was related by the passengers of the little steamer Excelsior, which has just arrived from St. Michaels, Alaska. Millions upon millions of virgin gold, according to the story, awaits the fortunate miner who has the hardihood and courage to penetrate into the unknown depths of the Yukon district.

Victoria's Sealing Fleet. VICTORIA, B. C., July 16.—Only 30 Victoria sealing schooners will go to Behring sea this season, compared with 44 last year. Bicycle Firm Assigns. CHICAGO, July 16.—The Mason & Mason Co., manufacturers of bicycles, made an assignment Thursday. The liabilities are placed at \$80,000 and the assets at \$75,000. ## THE LONDON PRESS

On the Alleged Note of Secretary Sherman on the Sealing Question.

LONDON, July 16.—The Daily Mail says editorially: "Unless we get an arbitration treaty the day will come when the unbridled voracity of a small section of American politicians will magnify petty insult into a pretty war. Secretary Sherman's dispatch is too un diplomatic for English ears and too hollow for American common sense. In the interests of humanity the rumored alliance between Japan and Spain is desirable. Our Yankee friends want a little blood letting to bring them to a sensible international policy, and this would best be done by any hands other than those of England."

The Times, in an editorial article, says: "It is impossible to doubt the authenticity of the document. It is a manifest attempt in offensive language, to fasten upon England a charge of bad faith. If this was not Secretary Sherman's intention he has shown himself singularly unfitted for the delicate and responsible duties of his office. If it was, then the statement he recently made repudiating the charge of bad faith is deliberately misleading. When he was first appointed to his present office doubts were expressed as to the wisdom of the choice. If he really sent this dispatch they will be fully confirmed."

The Daily Chronicle thinks Lord Salisbury would be justified in returning Secretary Sherman's dispatch on the ground that the British government does not receive communications couched in such terms. If he does not, it is because American diplomats assume a certain liberty of language not used by other countries. The Chronicle proceeds to severely censure the methods of American diplomacy, and says: "The fact that some nations, like ourselves, are fortunate in being favored with the presence of a diplomat, who is no less a gentleman in public than in private life is not sufficient to remove this slur and danger."

The Standard says editorially: "The appearance of Secretary Sherman's dispatch has undoubtedly damaged the position of the state department. It is preposterous that we should be accused of bad faith by men who have notoriously refused to comply with an impartial award simply because it was given against them."

The Post in an editorial, says: "Every indication points to the certainty that Great Britain will be compelled to fight for her existence against the United States, as the American government believes that war can be safely begun. In such a situation war can not be averted by justice nor by good will. Our statesman must search their consciences and make sure that in any controversy that may be raised their attitude is just and fair. They should concede so long as there is any reasonable doubt concerning the justice of their position, but they must be prepared for an appeal to force. We can imagine no more dreadful calamity."

"Our duty is to make sure that it comes by no fault of ours and that it shall find us united and prepared. The respite will in all probability be the time needed for the creation of a more powerful American fleet, say three or four years, or for the creation of a political combination with some naval power, say in as many months. The organization to sustain such a contest may be short. The time to face the situation is not in three years or three months, but now."

LONDON, July 16.—The Times, in its financial article Friday, referring to Secretary of State Sherman's communication in reference to the seal controversy, says: "Mr. Sherman's dispatch is not regarded seriously, but the fact that American statesmen, or rather, politicians, think it useful from time to time to indulge in language of scarcely veiled hostility will not pass unnoticed, and will add to the prevailing indisposition of prudent investor to buy American securities."

Sale of Gold Bonds. NEW YORK, July 16.—Controller Fitch Thursday made advertisement for the sale of gold bonds of the city of New York, amounting to \$10,000,000. The bonds will bear three per cent. interest.

## FOR TREASON.

### Eighty Rich Spanish Merchants in Havana Arrested.

#### They Are Charged With Selling Merchandise and Medicine to Cubans.

Several of These Under Arrest Are Members of the Union Constitutional Party—Two Influential Spanish Officers—A Spanish Cannon to Cubans.

HAVANA, July 16.—The greatest excitement that has existed since the war began prevails here now. Eighty rich Spanish merchants and bankers, including Don Antonio Quesada, ex-mayor of Havana, were arrested here charged with selling merchandise and medicine to the Cubans. Many of these under arrest are prominent members of the Union Constitutional party. The combined wealth of the men arrested exceeds \$30,000,000.

It is stated by their friends that the arrests are made for the purpose of blackmail, and it is intimated that the chief of police has informed the prisoners that they will be released if the sum of \$100,000 be paid.

La Lucha has revealed a fact which is making much comment here. Near El Seborcal, Remedios, Santa Clara province, the Spanish Capt. Estrada, with his guerrilla forces, captured a Cuban stock of arms, including several rifles and two big gun carriages, made in Barcelona, Spain. The cannon, it appears, had been taken from the carriages by the Cubans and put in some other safe place.

Everybody here at once began talking about those mysterious guns. Later the mystery was solved, to the great surprise of the Spanish loyalists. The cannon were sold to the Cubans by two Spanish officers, who were very influential with the government and with Gen. Weyler. Such remarkable incidents are showing the real character of Gen. Weyler's administration.

A report is current that the patriots have attacked and partially burned Cardenas. There are fully 3,000 Cubans in the vicinity of Mantanzas City and Cardenas. Gen. Molina left Mantanzas with a strong column. Gen. Weyler has not succeeded in capturing Gomez and has evidently given up the idea.
